

LIVE SYNCHRONOUS PD

Delivered via Zoom, Google Meet, or In-Person

Advanced Differentiation (6 hour)

In this workshop, we cut through the various definitions to focus on what matters, targeted student engagement that leads to mastery.

We'll unpack models of advanced differentiation, including a focus on increasing rigor through individual, standards-based products.

Our goal is to have practical strategies for differentiating academic content while reinforcing what teachers can say and do to best acknowledge, support, and nurture students' social/emotional needs.
